SDC200/RDS

SDC200/RDS front view

Features

- > **PRIMARY APPLICATION:** the **SDC200/RDS** is a high-performance digital stereo encoder that incorporates all technical features offered by more expensive coders without compromising on quality in this economical device; it combines high DSP-based Digital Stereo performance with an RDS coder.
- > **TECHNICAL FEATURES:** The **SDC200/RDS** generates an "MPX" (composite stereo) signal that is processed digitally through an internal DSP (Digital Signal Processing) using the Right and Left digital inputs, and ensuring both a high stereophonic separation that a high input level capacity. The stereo coding is realized digitally, as well as the low-pass filters and the preemphasis.
- > **INPUT/OUTPUT INTERFACE:** the digital input section supports S/PDIF, AES/EBU (sampling frequencies from 32 to 96 KHz) and EIAJ CP340/1201 data format. The analogue input/output section supports two buffered MPX outputs, each with independent levels, maintain best stereo separation even when load is as low as 50 Ohm.
- > **INTERFACE CONTROL:** total control thanks to microprocessor easily programmed from menu with all key parameters displayed on LCD.
- > **HARDWARE FEATURES:** the system housed in lightweight and rugged stainless steel rack cases having the dimension of 1 HE.

Caratteristiche

- > **PRIMARY APPLICATION:** il **SDC200/RDS** è un codificatore stereo digitale ad alte prestazioni che integra in un sistema economico tutte le caratteristiche tecniche di coder più costosi, senza compromettere la qualità; unisce alte prestazioni Stereo Digitali basate su DSP con un coder RDS.
- > **TECHNICAL FEATURES:** Il **SDC200/RDS** genera un segnale "MPX" (Stereo Composito) direttamente in formato digitale attraverso un circuito DSP "Digital Signal Processing" (elaborazione digitale di segnale) utilizzando gli ingressi digitali Destro e Sinistro, e garantendo sia un'alta separazione stereo che un'alta capacità di livello in ingresso. La codifica stereo è realizzata digitalmente, come pure i filtri passa basso d'ingresso e la preenfasi.
- > **INPUT/OUTPUT INTERFACE:** La sezione degli ingressi digitali comprende il supporto di S/PDIF, AES/EBU (frequenze di campionamento da 32 a 96 KHz) e formato dei dati EIAJ CP340/1201. La sezione degli ingressi/uscite analogiche presenta due uscite MPX bufferizzate, ciascuno con livelli indipendenti, che permettono di tenere una separazione stereofonica ottimale anche con carichi bassi quanto 50 Ohm.
- > **INTERFACE CONTROL:** controllo completo basato su microprocessore e da menu con lettura su display LCD di tutti i parametri principali.
- > **HARDWARE FEATURES:** il sistema è realizzato in un contenitore rack in acciaio inox incredibilmente leggero e robusto in dimensioni di 1 HE.

Technical specifications

audio &
RDS equipments

| | | SDC200/RDS |
|---------------------------|----------------------|-------------------------------------------------------------|
| Parameter | | Value |
| GENERALS | | |
| Overall Dimensions | L x H x W | 483 x 44 x 280 mm |
| Weight | | 3,5 kg |
| Operating Temperature | | From -10 °C to +50 °C |
| Operating Humidity | | 95% non condensing |
| A/D conversion | | 24 bit (Dynamic range 105dB) |
| D/A conversion | | 24 bit (Dynamic range 123dB) |
| DSP elaboration | | 32 bit, fixed point |
| Sampling Rate | | From 32 to 96 KHz |
| Preemphasis | | 0/50/75 microsec. |
| Clipper & AGC | | Right and Left channel, composite MPX input |
| RDS function | EN50067 | PTY,PTYN,TA,TP,MS,DT,PI,PS,AF,PIN,EON,RT,TDC,TMC,EWS,IH,CT |
| | Command formats | UECP - SPB490 Ver.6.1 / 2003 |
| | Frequency | 57 KHz ±1,5 Hz (Internal/External Reference) |
| | Phase | Adjustable up to 360° in 0,33° increments |
| POWER REQUIREMENTS | | |
| AC Power Input | AC Supply Voltage | 115 ÷ 230 VAC ±10% |
| | Connector | VDE IEC Standard |
| INPUTS | | |
| Left & Right | Connector | XLR balanced (female) |
| | Impedance | 600 / 10k Ω |
| | Input level | -12dBu to +12dBu in step of 0,1dB – adjustable via software |
| | Maximum input level | +16 dBu |
| MPX | Connector | BNC unbalanced (female) |
| | Impedance | 10k Ω |
| | Input level | Gain 0dB / Out. +20 dBu |
| PILOT | Connector | BNC unbalanced (female) |
| | Impedance | 10K Ω |
| | Input level | -30 / +12 dBu (Sinusoid. or TTL) |
| DIGITAL | Connector | RCA unbalanced (male) |
| | Impedance | 75 Ω |
| TOSLINK | Connector | EIAJ optical |
| OUTPUTS | | |
| 1 & 2 | Connector | BNC unbalanced (male) |
| | Impedance | 50 Ω |
| | Output level | -12dBu to +12dBu in step of 0,1dB – adjustable via software |
| | Maximum output level | +20 dBu |
| CONNECTORS | | |
| RS232 serial port | Connector | 3x DB9 (female) + 1 USB (optional) |
| | Connection rate | From 1200 to 115200 Baud |
| REMOTE input | Connector | DB9 (male): 8 Input + 8 Output (Optional) |
